Corel PaintShop Pro X7 17.0.0.199 (keygen CORE) Corel WinDVD Pro 11.6.1.4 Retail (keygen CORE) [ChingLiu] Does anyone know how to remove the keys.txt file? I'm considering a restore of the old version but I wonder if there is any other way. A: I don't think any version of Corel PaintShop Pro 10 that is older than version 12 (v12) will have the.keys.txt file. The.keygen.txt file that you may have seen is in fact (regardless of version) an updated version of the.keys.txt file. The file in the Windows installation path has a name of Corel WinDVD Pro\_Professional\_2012.dll. After downloading and installing the last version of Corel PaintShop Pro v18 the.keygen.txt file is located in that installation path. .keys.txt file The.keys.txt file is one of the supported files with options file with Corel PaintShop Pro v18. FTP connection to the file and owner The location of the FTP/file connection to the.keys.txt file is in the Windows directory in the directory CorelWinDVDPro\_Professional\_2012. 570a42141b
