My Mix allows you to create high quality CD copies of your existing audio collections. This software allows you to automatically remix a collection of audio tracks from a digital audio file into a nice CD collection. You can mix your audio tracks using My Mix "compression" tool which allows you to level, limit, fade, transition, scale and align tracks of your collection in a single click. Plus, you can create a beautiful "collection artwork" and "Mix of the Day" of your tracks just by using the "ARTWORKING" function. If you want to do further adjustments on your mix collection you can use the "SCALE" feature to adjust the audio track's volume. You can add intros and finales, remove tracks such as "silence", "pitch shifting" and "masking" to further improve the sound of your collection. Using the "SCALE" function you can "normalize" the overall volumes of all your tracks, "compensate" for different track lengths, balance your collection and fill in silence. Other features of My Mix:  Automatically compile the mix into a "final" CD

☐ Minimize the size of the CD archive file by "setting minimal volume"
☐ Save the current settings as a "preset" to create easy and elegant mixes
☐ Listen to the "finished" mix using WAV file ☐ Set time stamps for each track with the "timestamp" feature ☐ Set the order and structure of your tracks with the "track sequence" feature. ☐ Use the "seek" feature to jump in your CD ☐ Add meta information such as artist, title, album and others to your tracks. ☐ Enable volume "tagging" to automatically apply volume labels to your tracks
Limitations: ☐ Windows and Mac version available

NiGHTS Into Dreams + Mix for Windows. Check out this great game and the NiGHTS Into Dreams video on the new Mix 2 demo here: Want to help donate to NiGHTS software development or choose from all of the options available at NiGHTS into Dreams (for Windows) is an action game. It is the sequel to NiGHTS of the Night, developed by Rare. This is a demo for a stand alone Windows version. Those of you that own the original arcade game get the demo to play all the levels from the original game. Please note that this demo is for entertainment use only, with no support available if issues arise. So I did a "hybrid" update to a boot.img of the Mix 2demo. This has all of the nexuiz and bluray games installed on a normal pc, where the Mix 2 demo is the "hardware" level. This is the file that i updated: I created a hybrid (zipped) boot.img of the Mix 2demo for the PC. Now the original Mix demo can be installed on a PC, and the Hybrid Mix Demo can be installed on the Mix HARDWARE. It

has the "hardware" preconfigured

System Requirements:

Mac OS X 10.4 or higher, Windows XP SP2 or higher, or Linux with libSDL installed. 64-bit Linux distro is recommended. Adobe AIR 2.2 or higher. If using a VNC viewer to control Mac, or using a Mac without a built-in VNC viewer (e.g., FaceTime for Mac), we recommend using RDC. You can optionally install the latest release of VirtualBox or VMWare Fusion and run Windows as a virtual machine. For detailed info about which
