Jigsaw puzzle game The jigsaw puzzle is a game played by placing colored and interlocking wooden puzzle pieces into a rectangular board, with the pieces' edges of certain colors being connected, thus forming an aesthetically pleasing jigsaw-like appearance. The puzzle game of the present invention does not require any glue, screws or other hardware. Jigsaw puzzles are a unique genre that has been around since the 1780s and they are one of the oldest forms of fun puzzles still played today. Since their invention, hundreds of millions of jigsaw puzzles have been sold to a wide and varied audience. Jigsaws are categorized by the number of pieces they contain. Common puzzles typically contain anywhere from ten to a hundred pieces. However, many puzzles can contain as few as four to as many as two thousand pieces. However, the numbers of pieces in the two thousand piece
