Product Key For Autodesk 2D 2019 Product Key Description: The latest version of Autodesk CAD software for 2D designer. This product is officially released on April 24, 2019.. // NO\_REGISTER\_FUNCTION\_NAME // If a function name contains a stack frame pointer register name like %rsp, we // don't generate 64-bit code. (See the comment in kCCIOCallMethodName.) // // By default, all function calls are assumed to return in the stack frame // %rsp, so we want to keep this info in the compiled code. This is the code // we want to be able to link against, which means we need a 32-bit pointer // type, and we want the compiler to reserve register names %rsp, %rbp, %rbx, // %r12, %r13, and %r14 for just that use. // // For now, we just disable 64-bit register names completely for the Android // NDK compiler. If you want to build 64-bit code for Android, just compile // with the -m32 flag. // // NOT YET IMPLEMENTED! #ifdef NO\_REGISTER\_FUNCTION\_NAME .macro NO\_REGISTER\_FUNCTION\_NAME,n // If we don't know whether a register is used, we can compile the // code without it. // // This happens when NO\_REGISTER\_FUNCTION\_NAME is undefined, but we can // compile with %rsp set to a non-NULL value if we know the function will // not use %rsp. .arm
