For a Full License, please purchase the full version of \$49.95 at: The Pong Screensaver was developed to be a small program based on the original video game Pong. The two sides are actually playing each other. Who knows who will win? Pong as well as video games themselves were invented by Ralph Baer in the 1960s when he introduced 7 prototypes. The last prototype released in 1968 known as "The Brown Box" played Ball & Paddle games, Target Shooting games, and more. Included with this setup is a picture of Ralph Baer just incase you were interested. Pong Screensaver Description: After 10 years of testing, another product of Ralph's perfection has been built. ## What's New in the?

The Pong Screensaver will give you a digital representation of a two-player game of the Pong video game. The Pong screensaver will be able to play one-on-one between itself and an opponent. The winner of each Pong game is stored in a preference setting. As the winner of each game is saved, the computer will then perform an animation of a win, loss or draw. NOTE: The playing will work from start to finish with no missing or added pieces. Also the Screensaver will automatically restart when paused. Also the game will not be able to be paused when running. It is important to note that you will need to have the Pong game installed in your computer. You can find it from here: The Pong Screensaver will save a preference setting. This is where you can decide what you want the Screensaver to do. Version 3.1 Added auto play with pause. Version 3.0 When running the Screensaver will pause when the game is paused. When the game finishes it will automatically start again. When pausing the game the current winner will be saved. It will store the winner so you can know what happened to the Pong game. Version 2.0 Added a config menu to allow you to turn off the auto play. Version 1.0 Initial release. Configure You can configure the Screensaver with the Config menu. The configuration menu allows you to turn off the auto play and pick what game the Screensaver will be playing. Also the winning score is stored in the preferences. Languages The Screensaver is available in English, German, French, Spanish, Italian, and Dutch. History You can choose from different versions of the Screensaver. Each version has a different number. The version number can be seen when you hit the F1 key when the Screensaver is running. When the version is changed, the Screensaver will change the name. To make the next version the old name can be changed by going to the config menu and changing the "Previous Version" field. Also to make sure you have the latest Screensaver go to and download the latest release. Release Notes There have been so many versions of the Pong Screensaver it is very difficult to list them all here. But the list of versions is: 0.1.1 0.1.0 0.1.0.1 0.1.0.2 0.1.0.3
